CONSOLIDATED FINANCIAL STATEMENTS

Second quarter of 2026

Notes to the Consolidated Financial Statements (cont.)

Principal business activities of this jointly-controlled entity are to extract and produce hydrolyzed Collagen, Gelatin used for pharmaceuticals, cosmetics and foodstuff. As of the statement of financial position date, the Group's ownership rate and voting rate at this jointly-controlled entity are 50% (beginning balance: 50%).

6. Statement of information comparability on the Consolidated Financial Statements

The figures in the current period can be comparable with corresponding figures in the previous period.

II. ACCOUNTING PERIOD AND ACCOUNTING CURRENCY

1. Accounting period

The accounting period of the Group is from 01 January to 31 December annually.

2. Accounting currency unit

The accounting currency unit is Vietnamese Dong (VND) since the Group's transactions are primarily made in VND.

III. ACCOUNTING STANDARDS AND SYSTEM

1. Accounting System

The Group applies the Vietnamese Accounting Standards and System, which were issued together with the Circular No. 99/2025/TT-BTC dated 27 October 2025 guiding the Vietnamese Accounting System, the Circular No. 202/2014/TT-BTC dated 22 December 2014 guiding the preparation and presentation of the Consolidated Financial Statements, and other Circulars guiding implementation of Vietnamese Accounting Standards of the Ministry of Finance in preparation and presentation of the Consolidated Financial Statements.

2. Statement of the compliance with the Accounting Standards and System

The Board of Directors ensures to follow all the requirements of the Vietnamese Accounting Standards and System, which were issued together with the Circular No. 99/2025/TT-BTC dated 27 October 2025, the Circular No. 202/2014/TT-BTC dated 22 December 2014, and as other Circulars guiding the implementation of Vietnamese Accounting Standards of the Ministry of Finance in the preparation and presentation of the Consolidated Financial Statements.

IV. ACCOUNTING POLICIES

1. Accounting convention

All the Consolidated Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

2. Consolidation bases

The Consolidated Financial Statements include the Financial Statements of the Parent Company and those of its subsidiaries. A subsidiary is an enterprise that is controlled by the Parent Company. The control exists when the Parent Company has the power to directly or indirectly govern the financial and operating policies of the subsidiary to obtain economic benefits from its activities. In determining the control power, the potential voting right arising from options or debt and capital instruments that can be converted into common shares as of the consolidated statement of financial position date should also be taken into consideration.

The financial performance of subsidiaries, which are bought or sold during the period, is included in the Consolidated Income Statement from the date of acquisition or until the date of selling investments in those subsidiaries.

CONSOLIDATED FINANCIAL STATEMENTS

Second quarter of 2026

Notes to the Consolidated Financial Statements (cont.)

The Financial Statements of the Parent Company and those of subsidiaries used for consolidation are prepared in the same accounting period and apply consistently accounting policies to the same types of transactions and events in similar circumstances. In the case that the accounting policy of a subsidiary is different from the accounting policy applied consistently in the Group, the Financial Statements of that subsidiary will be properly adjusted before being used for the preparation of the Consolidated Financial Statements.

Intra-group balances in the Consolidated Statement Of Financial Position and intra-group transactions and unrealized profits resulting from these transactions must be completely eliminated. Unrealized losses resulting from intra-group transactions are also eliminated unless costs cannot be recovered.

Benefits of non-controlling shareholders reflect profit or loss and net assets of subsidiaries, which are not held by the Group and presented in a separate item of the Consolidated Income Statement and Consolidated Statement Of Financial Position (classified under owner's equity). Benefits of non-controlling shareholders include the values of their non-controlling benefits at the initial date of business combination and those arise within the ranges of changes in owner's equity from the date of business combination. The losses arising in the subsidiary are attributed equally to the ownership rate of non-controlling shareholders, even if such losses are higher than the interest owned by these shareholders in net assets of the subsidiaries.

3. Foreign currency transactions

Transactions in foreign currencies are converted at the actual exchange rates ruling as of the transaction dates. The ending balances of monetary items in foreign currencies are converted at the actual exchange rates ruling as of the statement of financial position date.

Foreign exchange differences arisen from foreign currency transactions during the period shall be included into financial income or financial expenses. Foreign exchange differences due to the revaluation of ending balances of the monetary items in foreign currencies are recognized in financial income or expenses and presented on a net basis in the income statement.

The exchange rate used to convert foreign currency transactions is the actual exchange rate ruling as at the time of these transactions. The actual exchange rates approximate the average transfer exchange rate of the bank where the Group frequently conducts transactions. The approximate exchange rate does not exceed +/- 1% compared with the average transfer exchange rate. The average transfer exchange rate is determined daily based on the average between the buying transfer rate and selling transfer rate of the commercial bank where the Group frequently conducts transactions.

The exchange rates used to re-evaluate the ending balances of monetary items in foreign currencies are the average transfer rate of BIDV.

4. Cash and cash equivalents

Cash includes cash on hand and demand deposits in banks. Cash equivalents consist of short-term investments of which the due dates cannot exceed 3 months from the dates of the investments and the convertibility into cash is easy, unrestricted in use, and which do not have a lot of risks in the conversion into cash as of the recording date.

5. Financial investments

Held-to-maturity investments

Investments are classified as held-to-maturity investments that the Group intends and is able to hold to maturity. Held-to-maturity investments of the Group only include held-to-maturity term deposits for the purpose of receiving periodical interest.

NAM VIET CORPORATION

Address: No. 19D Tran Hung Dao Street, Long Xuyen Ward, An Giang Province

CONSOLIDATED FINANCIAL STATEMENTS

Second quarter of 2026

Notes to the Consolidated Financial Statements (cont.)

Held-to-maturity investments are initially recognized at cost including the purchase cost and other transaction costs. After initial recognition, these investments are recorded at recoverable value. Interest from these held-to-maturity investments after acquisition date is recognized in the profit or loss on the basis of the interest income to be received. Interests arising prior to the Group's acquisition of held-to-maturity investments are recorded as a decrease in the costs as at the acquisition time.

When there are reliable evidences proving that a part or the whole investment cannot be recovered and the loss is reliably determined, the loss is recognized as financial expenses during the period while the investment value is derecognized.

Loans

Loans are measured at costs less allowance for doubtful debts. Allowance for doubtful debts of loans is made on the basis of estimated losses.

Investments in joint ventures

A joint venture is an entity which is established by a contractual arrangement whereby the Group and the involved parties undertake an economic activity that is subject to joint control. Joint control is the contractually agreed sharing of control over an economic activity, and exists only when the strategic financial and operating decisions relating to the activity require the unanimous consent of the venturers.

The Group recognizes its interests in jointly-controlled entity in accordance with the equity method. Accordingly, contributed capital in joint venture is initially recognized at original cost and then adjusted for the changes in the Group's ownership rate of net assets of jointly-controlled entity. The Consolidated Income Statement reflects the Group's ownership in the financial performance of jointly-controlled entity. The Group stops using the equity method from the date it ceases to have the jointly-controlled right or significant influences on jointly-controlled entity.

The Financial Statements of the jointly-controlled entity are prepared for the accounting period that is the same with the Consolidated Financial Statements of the Group. In the case that the accounting policy of a jointly-controlled entity is different from the accounting policy applied consistently in the Group, the Financial Statements of that jointly-controlled entity will be properly adjusted before being consolidated in the Consolidated Financial Statements.

Unrealized profit/(losses) arising from transactions with jointly-controlled entity are eliminated in proportion to the amount under the Group's ownership in the preparation of the Consolidated Financial Statements.

Investments in equity instruments of other entities

Investments in equity instruments of other entities include such investments in equity instruments that do not enable the Group to have the control, joint control or significant influence on these entities.

Investments in equity instruments of other entities are initially recognized at costs, including cost of purchase or capital contribution plus other directly attributable transaction costs. Values of these investments are derecognized for dividends and profits arising in the periods prior to the acquisition of such investments. Dividends and profit arising in the periods after the acquisition of investments are recorded into the Group's revenue. Particularly, the dividends paid in form of shares are not recorded as an increase in values, but the increasing quantity of shares is followed up.

Provisions for impairment of investments in equity instruments of other entities are made as follows:

- For investments in listed shares or fair value of investments which is reliably measured, provisions are made on the basis of the market value of shares.

NAM VIET CORPORATION

Address: No. 19D Tran Hung Dao Street, Long Xuyen Ward , An Giang Province

CONSOLIDATED FINANCIAL STATEMENTS

Second quarter of 2026

Notes to the Consolidated Financial Statements (cont.)

- For investments of which the fair value cannot be measured at the time of reporting, provisions are made on the basis of the losses suffered by investees, at the rate equal to the difference between the actual capital invested by owners and the owner's equity as of the statement of financial position date multiplying (x) by the Group's rate of charter capital over the total actual charter capital invested in these investees.

Increases/decreases in the provisions for impairment of investments in equity instruments of other entities as of the statement of financial position date are recorded into financial expenses.

6. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Group and customers who are independent to the Group, inclusive of receivables for the exports entrusted to other entities.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt on the basis of the ages of debts after offsetting against liabilities (if any) or estimated loss.

Increases/decreases in the obligatory allowance for doubtful debts as of the statement of financial position date are recorded into general and administration expenses.

7. Inventories

Inventories are recognized at the lower of cost or net realizable value.

Cost of inventories is determined as follows:

- For materials and merchandises: Costs comprise costs of purchases and other directly relevant costs incurred in bringing the inventories to their present location and conditions.
- Work-in-process: Costs only comprise costs of main materials.
- For finished goods: Costs comprise costs of materials, direct labor and directly relevant general manufacturing expenses allocated on the basis of normal operations.

Stock-out costs are determined in accordance with the weighted average method and recorded in line with the perpetual method.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for inventories is recognized for each type of inventories when their costs are higher than their net realizable values. Increases/decreases in the obligatory allowance for inventories as of the statement of financial position date are recorded into costs of sales.

8. Prepaid expenses

Prepaid expenses comprise actual expenses incurred and relevant to financial performance in several accounting periods. Prepaid expenses of the Group mainly include expenses of tools, land rental, repair expenses and loss from sales of fixed assets and then leaseback as financial lease. These prepaid expenses are allocated over the prepayment period or period of corresponding economic benefits generated from these expenses.

NAM VIET CORPORATION

CONSOLIDATED FINANCIAL STATEMENTS

Second quarter of 2026

Notes to the Consolidated Financial Statements (cont.)

Tools

Expenses of tools being put into use are allocated into expenses in accordance with the straight-line method for the maximum period of 2 years.

Land rental

Prepaid land rental reflects the rental prepaid for the land being used by the Group and is allocated into expenses in accordance with the straight-line method over the lease term.

Repair expenses

Expenses on large repair of fixed assets reflect the expenses in relation to the repair of plants, machinery and equipment. Expenses on large repair of fixed assets are allocated in accordance with the straight-line method for the maximum period of 3 years.

Loss from sales of fixed assets and then leaseback as financial lease

Difference in selling price which is lower than net book value of fixed assets in case of assets sold and then leaseback as financial lease is allocated into expenses over the leaseback term.

9. Operating leased assets

A lease is classified as an operating lease if it transfers substantially all the risks and rewards incident to ownership belonging to the lessor. The lease expenses are allocated in the operation costs in accordance with the straight-line method over the lease term and do not depend on the method of lease payment.

10. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Group to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into operation costs during the period.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied are as follows:

<u>Fixed assets</u>	<u>Years</u>
Buildings and structures	05 - 25
Machinery and equipment	03 - 16
Vehicles	03 - 11
Office equipment	03 - 10
Other tangible fixed assets	04 - 18

11. Financial leased assets

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incident to ownership belonging to the lessee. Financial leased assets are determined by their historical costs less accumulated depreciation. Historical cost is the lower cost of the fair value of the leased asset at commencement of the lease term and the present value of the minimum lease payments. Discount rate used to calculate the present value of the minimum lease payments is the interest rate implicit in

the lease or else mentioned in the lease. If the interest rate implicit in the lease cannot be determined, the incremental borrowing rate at commencement of the lease term will be applied.

Financial leased assets are depreciated in accordance with the straight-line method over their estimated useful lives. If there is no reasonable certainty that the Group will obtain ownership at the end of the lease, the fixed asset shall be depreciated over the shorter of the lease term and the estimated useful life of the asset. The depreciation years of the financial leased assets are as follows:

<u>Fixed assets</u>	<u>Years</u>
Machinery and equipment	05 - 16
Vehicles	06

12. Intangible fixed assets

Intangible fixed assets are determined by their initial costs less accumulated amortization.

Initial costs of intangible fixed assets include all the costs paid by the Group to bring the asset to its working condition for its intended use. Other costs relevant to intangible fixed assets arising subsequent to initial recognition are included into operation costs during the period only if these costs are associated with a specific intangible fixed asset and result in future economic benefits expected to be obtained from the use of these assets.

When an intangible fixed asset is sold or disposed, its initial costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

The Group's intangible fixed assets include:

Land use right

Land use right includes all the actual expenses paid by the Group directly related to the land being used such as expenses to obtain the land use right, compensation for house removal, land clearance and ground leveling, registration fees, etc.

The land use right of the Group is amortized in accordance with the straight-line method over the land using period. If the land use right is permanent, it is not amortized.

Computer software

Expenses attributable to computer software, which is not a part associated with the relevant hardware, will be capitalized. Costs of computer software include all the expenses paid by the Group until the date the software is put into use. Computer software is amortized in accordance with the straight-line method from 3 to 6 years.

13. Biological Assets

The company's biological assets include broodstock for periodic production and market-ready fish.

Broodstock for periodic production

The costs of purchasing, caring for, and raising these animals, etc., incurred from the beginning until they reach maturity, are included in the cost of the biological assets.

Market-ready fish

All costs of purchasing, caring for, and raising these assets, etc., directly related to these assets, are accounted for in the cost of the biological assets.

At the end of the accounting period: If there is any indication or evidence that these assets are lost or their net realizable value is lower than their book value, the enterprise must make a provision for loss of biological assets.

CONSOLIDATED FINANCIAL STATEMENTS

Second quarter of 2026

Notes to the Consolidated Financial Statements (cont.)

14. Construction-in-progress

Construction-in-progress reflects the expenses (including relevant loan interest expenses following the accounting policies of the Group) directly attributable to assets under construction, machinery and equipment under installation for purposes of production, leasing and management as well as the repair of fixed assets in progress. These assets are recorded at historical costs and not depreciated.

15. Business combination and goodwill

The business combination is accounted by applying acquisition method. The costs of business combination include the fair values as at the acquisition date of the exchanged assets, the incurred or assumed liabilities as well as the equity instruments issued by the Group in exchange for control of the acquiree, plus any cost directly attributable to the business combination. The acquired assets, the identifiable and contingent liabilities assumed from the business combination are recognized at their fair values as at the acquisition date.

If the business combination covers some accounting periods, the cost of business combination equals the total investment made at the date of obtaining the control of subsidiaries plus the amount of previous investments which are re-evaluated at fair value as at the date of obtaining the control of subsidiaries. The difference between the re-evaluated amount and the cost of investment shall be recorded in the financial performance provided that the Group does not have any significant influence on subsidiaries prior the date of obtaining the control and the investment in subsidiaries is presented in line with the cost method. In case where the Group has significant influence on the subsidiaries prior the date of obtaining the control the investment in subsidiaries is presented in line with the equity method, the difference between the re-evaluated amount and the cost of investment determined in line with the equity method shall be recorded in the financial performance; and the difference between the investment determined in line with the equity method and the cost of investment shall be directly recorded in "Retained earnings" of the Consolidated statement of financial position.

The excess of the cost of business combination over the ownership share of the Group in the net fair value of the assets, the identifiable and contingent liabilities of acquiree which are recognized at the date obtaining the control of subsidiaries is recognized as goodwill. If the ownership share of the Group in the net fair value of the assets, the identifiable and contingent liabilities of acquiree which are recognized at the date of obtaining the control of subsidiaries exceeds the cost of business combination, the difference will be included in the financial performance.

The benefit of non-controlling shareholders as at the date of business combination is initially measured on the basis of the ownership share of non-controlling shareholders in the fair values of the assets, the liabilities and the inherent liabilities recognized.

16. Payables and accrued expenses

Payables and accrued expenses are recorded for the amounts payable in the future associated with the goods and services received. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses and other payables is made on the basis of following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets, of which the seller is an independent entity with the Group, including payables for import through entrustment.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.

CONSOLIDATED FINANCIAL STATEMENTS

Second quarter of 2026

Notes to the Consolidated Financial Statements (cont.)

- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

Payables and accrued expenses are classified as short-term or long-term items in the Consolidated statement of financial position on the basis of their remaining maturity as of the statement of financial position date

17. Owner's equity

Capital

The capital is recorded according to the actual amount invested by the Corporation's shareholders.

Share premiums

Share premiums are recorded in accordance with the difference between the issuance price and face value upon the IPO, additional issue or the difference between the re-issuance price and carrying value of treasury shares and the equity component of convertible bonds upon maturity date. Expenses directly related to the additional issue of shares and the re-issuance of treasury shares are recorded as a decrease in share premiums.

Treasury shares

When a share capital in the owner's equity is re-purchased, the amount payable including the expenses related to the transaction is recorded as treasury shares and is recorded as a decrease in owner's equity. When this share capital is re-issued, the difference between the re-issuance price and carrying value of treasury shares is recorded in "Share premiums".

18. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Corporation as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

Dividends are recorded as payables upon approval of the General Meeting of Shareholders and Notice of dividend payment of the Board of Management.

19. Recognition of sales and income

Sales of merchandises, finished goods

Sales of merchandises, finished goods shall be recognized when all of the following conditions are satisfied:

- The Group transfers most of risks and benefits incident to the ownership of merchandises or products to customers.
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the merchandises and products sold.
- The amount of sales can be measured reliably. When the contracts stipulate that buyers have the right to return merchandises, products purchased under specific conditions, sales are recorded only when those specific conditions are no longer exist and buyers retains no right to return merchandises, products (except for the case that such returns are in exchange for other goods or services).
- The Group received or shall probably receive the economic benefits associated with sale transactions.
- The cost incurred or to be incurred in respect of the sale transaction can be measured reliably.

Sales of service provision

Sales of service provision shall be recognized when all of the following conditions are satisfied:

- The amount of sales can be measured reliably. When the contract stipulates that the buyer is entitled to return the services provided under specific conditions, sales is recognized only when these specific conditions are no longer existed and the buyer is not entitled to return the services provided.
- The Group received or shall probably receive the economic benefits associated with the provision of services.
- The stage of completion of the transaction at the end of reporting period can be measured reliably.
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

In the case that the services are provided in several accounting periods, the determination of sales is done on the basis of the volume of work done as of the statement of financial position date.

Sales of power

Sales of power are recognized upon confirmation on the power indicators between the Group and the electricity company.

Interest

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

Dividends and profit shared

Dividends and profit shared are recognized when the Group has the right to receive dividends or profit from the capital contribution. Particularly, the dividends paid in form of shares are not recorded as an increase in value, but the increasing quantity is followed up.

20. Construction contract

Construction contract is a contract agreed for acquisition of an asset or combined assets closely relevant or mutually dependent on their design, technology, function or basic using purpose.

When the results of the contract implementation can be estimated reliably:

- For construction contracts in which the contractor is entitled to pay according to construction progress: sales and expenses relevant to the contracts are recognized to corresponding completed assignment determined by the Group as of the statement of financial position date.
- For construction contract in which the contractor is entitled to pay according to volume of work done: sales and expenses relevant to the contracts are recognized to corresponding completed assignment confirmed by customer and are reflected in the invoices.

Increases/decreases in construction volume, compensations and other receivables are only recognized into sales when these are mutually agreed with the customer.

When the results of the contract implementation cannot be estimated reliably:

- Sales are only recognized equivalent to the contract's expenses and the payment is relatively reliable.
- The Contract's expenses are only recognized as the expenses when they occur.

Difference between total accumulated sales of construction contract recognized and the accumulated amount in the invoice of payment under the contract plan is recognized as receivable or payable under the contract plan.

CONSOLIDATED FINANCIAL STATEMENTS

Second quarter of 2026

Notes to the Consolidated Financial Statements (cont.)

21. Sales deductions

Sales deductions include trade discounts, sales allowances, sales returns incurred in the same period of providing products, merchandises, services, in which revenues are derecognized.

In case of products, merchandises, services provided in the previous periods but trade discounts, sales allowances, sales returns incurred in the current period, revenues are derecognized as follows:

- If sales allowances, trade discounts, sales returns incur prior to the release of the Consolidated Financial Statements, revenues are derecognized on the Consolidated Financial Statements of the current period.
- If sales allowances, trade discounts, sales returns incur after the release of the Consolidated Financial Statements, revenues are derecognized on the Consolidated Financial Statements of the following period.

22. Borrowing costs

Borrowing costs are interests and other costs that the Group directly incurs in connection with the borrowing.

Borrowing costs are recorded as an expense when it is incurred. In case the borrowing costs are directly attributable to the construction or the production of an asset in progress, which takes a substantial period of time (over 12 months) to get ready for intended use or sales of the asset, these costs will be included in the cost of that asset. To the extent that the borrowings are especially for the purpose of construction of fixed assets and investment properties, the borrowing cost is eligible for capitalization even if construction period is under 12 months. Incomes arisen from provisional investments as loans are recognized as a decrease in the costs of relevant assets.

In the event that general borrowings are partly used for the acquisition, construction or production of an asset in progress, the costs eligible for capitalization will be determined by applying the capitalization rate to average accumulated expenditure on construction or production of that asset. The capitalization rate is computed at the weighted average interest rate of the borrowings not yet paid during the period, except for particular borrowings serving the purpose of obtaining a specific asset.

23. Expenses

Expenses are those that result in outflows of the economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

24. Corporate income tax

Corporate income tax includes current income tax and deferred income tax.

Current income tax

Current income tax is the tax amount computed based on the taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

Deferred income tax

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between book values of assets and liabilities serving the preparation of the Financial

Statements and the values for tax purposes. Deferred income tax liabilities are recognized for all the temporary taxable differences. Deferred income tax assets are recorded only when there is an assurance on the availability of taxable income in the future against which the temporarily deductible differences can be used.

Carrying values of deferred corporate income tax assets are considered as of the statement of financial position date and will be reduced to the rate that ensures enough taxable income against which the benefits from part of or all of the deferred income tax can be used. Deferred corporate income tax assets, which have not been recorded before, are considered as of the statement of financial position date and are recorded when there is certainly enough taxable income to use these unrecognized deferred corporate income tax assets.

Deferred income tax assets and deferred income tax liabilities are determined at the estimated rate to be applied in the year when the assets are recovered or the liabilities are settled based on the effective tax rates as of the statement of financial position date. Deferred income tax is recognized in the Income Statement. In the case that deferred income tax is related to the items of the owner's equity, corporate income tax will be included in the owner's equity.

The Group shall offset deferred tax assets and deferred tax liabilities if:

- The Group has the legal right to offset current income tax assets against current income tax liabilities; and
- Deferred income tax assets and deferred income tax liabilities are relevant to corporate income tax which is under the management of one tax authority either:
 - Of the same subject to corporate income tax; or
 - The Group has intention to pay current income tax liabilities and current income tax assets on a net basis or recover tax assets and settle tax liability simultaneously in each future period to the extent that the majority of deferred income tax liabilities or deferred income tax assets are paid or recovered.

25. Related parties

A party is considered a related party of the Group in case that party is able to control the Group or to cause material effects on the financial decisions as well as the operations of the Group. A party is also considered a related party of the Group in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

26. Segment reporting

A business segment is a distinguishable component of the Group that is engaged in manufacturing or providing products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Group that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

The segment information is prepared and presented in conformity with the accounting policies applicable to the preparation and presentation of the Combined Financial Statements of the Group.

Corporate income tax

According to Decree No. 320/2025/ND-CP issued by the Government on December 15, 2025, which provides detailed regulations on a number of provisions and measures for the implementation of the Corporate Income Tax Law No. 67/2025/QH15, income from seafood processing activities is subject to a 15% tax rate starting from the 2025 tax year.

According to the Official Letter No. 1534/BTC-CST dated 31 January 2019 of the Ministry of Finance sent to the Tax Department of provinces/cities, income from producing solar power is applied the tax rate of 10% in 15 years from the date of the project's commencement, exempted from tax in 4 years from the year earning income from the project and reduced by 50% of tax payable in the next 9 years.

Income from other activities is subject to corporate income tax at the tax rate of 20%.

- (*) The Group retroactively adjusted the corporate income tax payable by Indian Ocean One Member Company Limited due to the collection of corporate income tax in arrears from 2019 to 2022 made by the Tax Department of Can Tho City and additionally self-declared corporate income tax according to 2023 income tax return due to the disapproval from the tax authority for the Group to enjoy tax incentives for aquatic product processing.

Details of corporate income tax payable of the Group companies are as follows:

	Accumulated from the beginning of the year	
	Current year	Previous year
Corporate income tax payable is calculated on the current year's taxable income	72.220.399.425	48.465.652.981
Adjusting corporate income tax payable of previous years	1.096.470.169	(88.507.959)
Corporate income tax must still be paid	73.316.869.594	48.377.145.022

Determination of corporate income tax liability of the Group companies is based on currently applicable regulations on tax. Nonetheless, these tax regulations may change from time to time and tax regulations applicable to variety of transactions can be interpreted differently. Hence, the tax amounts presented in the Consolidated Financial Statements can be changed upon the inspection of tax authorities.
